

A G E N D A

Livestock Siting Technical Expert Committee
Nutrient Management Subcommittee

September 8, 2010
9:30 a.m. to 3:00 p.m.

Location:
DATCP Room 172
2811 Agriculture Drive
Madison, WI 53718

1. Roll call and preliminary business matters
2. Review of matters from first organizational meeting on July 21, 2010
3. Address charge/assignment, a copy of which is available at http://www.datcp.state.wi.us/arm/agriculture/land-water/livestock_siting/technical_expert_committee.jsp, which may include consideration of:
 - a) Research, field trials and other relevant scientific information;
 - b) Standards and practices related to livestock facilities including requirements in related DNR programs;
 - c) ATCP 51 requirements and their implementation;
 - d) The following discussion issues will be specifically considered:
 - i. Does a checklist ensure that a nutrient management plan exists and meets standards?
 - ii. What documentation is needed to ensure rented land will available for manure spreading according to the nutrient management plan?
 - iii. How should environmentally sensitive features (karst, tile lines, direct conduits to groundwater) be determined and documented?
 - iv. How should methods of manure disposal (other than land application) be documented?
 - v. How should nutrients other than manure be accounted for?
 - vi. How do we determine compliance with a nutrient management plan?
 - vii. What conditions, if any, form the basis for local government to impose more stringent restrictions on land spreading practices?
4. Review of progress in addressing charge/assignment and plans for next steps
5. Adjournment
